

MAY 2026
JUST IN!

UPDATED MATERIAL

There is now an updated Shipbuilding Career Opportunities Flier available on the Marketplace. Check out the [updated material](#) and start using it today!

Use this flier to help current and prospective students understand the many benefits and opportunities of a career in the shipbuilding industry.

Watch this video to learn why giant careers begin here!

For additional information and digital assets, visit the [Shipbuilding website!](#)

RECRUITMENT MATERIALS 101

Looking for materials to help recruit prospective students to your center?

The Student Recruitment Toolkit is designed to support outreach and enrollment efforts with materials you can share with prospective students, families, counselors and community partners.

Creating a strong first impression is a critical part of student recruitment.

When prospective students clearly understand the opportunities, support services and career pathways available through Job Corps, they are more likely to explore enrollment and take the next step toward their future.

WANT A GUIDED WALK-THROUGH OF EVERYTHING IN THE STUDENT WELCOME AND RETENTION TOOLKIT?

Visit the [staff trainings section](#) of the Materials Marketplace!
