CAREER FAIR

**Center Director [Name] will direct attendees regarding the career training tours.*

Job Corps Is Building Tomorrow's Workforce.

Ready to meet your next employee?
Job Corps can help.

Partnerships between our Job Corps center and community benefit both students and employers alike. This collaboration with employers provides students with the right information, connections and opportunities to pursue careers in our nation's most in-demand industries.

But it doesn't stop there.

Together we can continue to build America's next generation of workers and inspire students and graduates to work toward their bright futures.

We are always looking to partner with industry leaders who need skilled workers ready to work hard and learn on the job.

Job Corps is ready.

Ready to meet the need. Train the workforce.
Drive the economy. Invest in the future.
